YOUR GATEWAY TO INTERNATIONAL BUSINESS

JIACCSERVICES

JIACC Services is a multiservice company, created to provide full assistance and support to Italian and Arab companies wishing to start a process of internationalization or further develop their business in their respective markets.

Established to offer effective solutions and adequate answers to the multiple needs that such a complex challenge requires to face, JIACC Services is the real operative arm of the Joint Italian Arab Chamber of Commerce - JIACC, and thanks to it, full access to the can highest levels of expertise can be guaranteed.

A network of well-known professionals and well established businessmen, acting through our offices in Rome, Milan and Dubai (in collaboration with the Italian Incubator of Excellency), together with the collaboration with the most important institutions involved in supporting the internationalization processes (such as SACE and ICE), are at the service of Italian and Arab SMEs to provide the tools and knowledge, from the simplest to the most complex matter, necessary to compete successfully in the markets in which the presence of more prospects for economic growth and more significant business opportunities, will be in favour.

Why JIACC Services

- Integrity and professionalism
- Experienced management
- Reliability and full institutional support
- Resident manager in a wide array of countries
- Strong import/export trading support
- Strong verified network
- High profile partners
- Export credit facilitation
- Tailor made assistance

Welcome/Marhaba!

On behalf of the **JIACC Services** I have the honor to welcome you all. **JIACC Services** was established in August 2018 to fulfill the many demands of Small and Medium Enterprises that kept coming through our offices in Rome, Milan and Dubai (in collaboration with the Italian Incubator of Excellency). We want **JIACC Services** to become the go-to place where Italian and Arab firms can find the assistance they need.

In the past few decades Arab countries have become a major destination for foreign investments, offering great opportunities to those who know how to seize them.

Italian firms have not fully exploited the business potential of the Arab world. This is why a group of successful Italian and Arab professionals and businessmen decided to establish JIACC, with the support of Italian and Arab governments and of the most important industrial and financial groups. JIACC services is JIACC's operational arm, responsible for assisting firms.

JIACC Services is the trait d'union between Italian firms and Arab countries. It assists and supports the internationalization of Italian and Arab SMEs. I am honored to head **JIACC Services** and I invite you to contact us. I am confident we will be capable to offer you the professional assistance you need.
